

Front 1 (Statewide Policy + LEA Implementation) Resources:

DE-K-12-Civics-Standards-2018.” Delaware Department of Education, 2018.

This is one of the main documents used that details all of the DDOE standards and guidelines for civic education teaching in K-12. If looking for standards and policies, it is best to use this document.

Merola, Julia. “How a Wilmington Charter Teacher Personalizes Civics for Students.” Spotlight Delaware, 1 Aug. 2024.

This resource is a primary example of a teacher who designs his course in a way that does not focus on standardized testing, but on valuable lessons that these teenagers of color can take with them for the future. It provides an example of a solid civic education plan that other teachers can mirror.

“National Civics Bee.” University of Delaware, University of Delaware, 17 Feb. 2026.

This resource provides another primary example of a strategy used in civics that contributes to a sense of belonging and community involvement amongst the youth generation and promotes the awareness of civic issues.

Rutz, Jarek. “State Ed Board Approves Social Studies Cut Scores, Focus On Civics.” Town Square Delaware LIVE [Delaware Live], 17 Nov. 2023.

This source talks about how Delaware’s state leaders are emphasizing the importance of media literacy for youth. This is especially considering the current polarized political landscape. Being digitally literate allows youth to differentiate between facts and misinformation.

“LEA Implementation/Strategic Planning Guidance.” Delaware Department of Education.

This document lays out LEA implementation and guidance for schools in Delaware. All strategies/activities in this LEA plan address root causes of the district’s urgent performance trends.

“Youth Voting and Civic Engagement in America.” CIRCLE, Tufts University, 2 Apr. 2020.

This resource provides statistics and data from individuals who voted in the 2020 election. It explores the percentages of civic engagement per state with different activities of engagement.

Front 2 (Community Rooted Power Building) Resources:

Real-world democracy education. Generation Citizen. <https://www.generationcitizen.org/>

This resource is Generation Citizen’s model through which they have established a civics education youth program that has been effective in increasing more youth participation in our democracy. They also provide a 5-step guide for best community-based practices that are rooted in equity.

Front 3 (School-Based Partnerships & Hands-On Civic Practice) Resources:

Civics Literacy Excellence Initiative (CLEI). (n.d.). Civics literacy excellence initiative. Florida Department of Education. <https://www.fldoe.org/academics/standards/subject-areas/social-studies/civics-lei.stml>

This resource talks about the Florida Civics literacy excellence initiative used in the Department of education. This has truly helped Florida have a strong civic engagement plan on paper.

Gardner, A. (2022, February 28). Civics education is back. New Jersey Education Association. <https://www.njea.org/civics-education-is-back/>

This resource talks about specific policies, curriculum, standards, and civic education laws that New Jersey has used to develop the strongest civic education model. Specifically, it talks about Laura Wooten Law.

Illinois State Board of Education. (n.d.). Illinois social science standards. <https://www.isbe.net/Documents/IL-Social-Science-Standards.pdf>

This resource mentions Illinois' civic education standards and policies and also guidance for civics. It goes in depth into Illinois strategies and tactics that have allowed them to also develop a strong civic education program.

New Jersey Department of Education. (n.d.). Social studies standards. <https://www.nj.gov/education/standards/socst/index.shtml>

This resource goes over New Jersey's civic education standards, policies, and strategies. It is similar to other New Jersey documents with overlaps in standards and laws. It is official Department of Education standards.

Texas Judicial Council. (2020). Improving civic education. https://www.txcourts.gov/media/1449807/2020_tjc_improving-civic-education_final_.pdf

This document is of a 2020 proposal that was passed to improve civic education in Texas. Due to this proposal, Texas has also been able to establish itself as having a strong civic education on paper.

Front 4 (Strategic Nonviolence + Leadership Development) Resources:

Essentials of strategic nonviolence. (2025).

<https://strategicnonviolenceacademy.org/essentials-of-strategic-nonviolence/>

This resource helps to establish the core concepts and importance of strategic nonviolence. It sets the foundation and helps us understand why strategic nonviolence is an essential component of civic education.

The Change Lab. (2025). The power of peace: How nonviolent movements fuel civic engagement and strengthen communities. <https://thechangelab.substack.com/p/the-power-of-peace-how-nonviolent>

This resource also establishes the connection between strategic nonviolence and civic engagement. It emphasizes the importance of strategic nonviolence in our communities and how it is more likely to bring about social change.

Center for Information & Research on civic learning and engagement.

<https://circle.tufts.edu/>

This resource provides a step by step plan on how to incorporate strategic nonviolence in teachings, and the importance of doing this. Their extensive research has led to a strong framework being created that they recommend to be used to teach strategic nonviolence in civic education.
